Same-store sales calculation in June 2022 vs. June 2021 includes 33 hotels in operation out of the 38 properties, considering five hotels closed in Silao, Irapuato, Celaya, Coatzacoalcos and the Holiday Inn Coyoacan.

As of June 30, 2022, Fibra Inn had a total portfolio of 38 properties with 6,442 rooms, 5,653 in operation and 789 remained closed. Fibra Inn participates with a minority investment in two projects under the Hotel Factory model, representing 426 rooms.

About the Company

Fibra Inn is a Mexican trust formed primarily to acquire, develop, and rent a broad range of hotel properties in Mexico for the business and leisure traveler. The Company has signed franchise, license and brand usage agreements with international hotel brands for the operation of global brands as well as the operation of national brands. These hotels enjoy some of the industry's top loyalty programs. Fibra Inn trades its Real Estate Certificates "CBFIs" on the Mexican Stock Exchange under the ticker symbol "FINN13."

Note on Forward-Looking Statements

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, Company performance and financial results. Also, certain reclassifications have been made to make figures comparable for the periods. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the Company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
