(2) BASIS OF PREPARATION AND PRESENTATION-

1. Statement of compliance.

The condensed consolidated financial statements for the six months ended June 30, 2025, have been prepared in accordance with International Financial Reporting Standards (“IFRS”) and International Accounting Standard (“IAS”) 34 *Interim Financial Reporting* issued by the International Accounting Standards Board (“IASB”) and should be read in conjunction with the latest consolidated financial statements of Fibra Inn for the year ended December 31, 2024. The accompanying notes were selected to explain events and transactions that are relevant to understanding the changes in Fibra Inn's financial position and operating results since the last annual financial statements.

2. Basis of measurement.

Trust DB/1616's unaudited condensed consolidated financial statements have been prepared on the basis of historical cost, except for the following items of the condensed consolidated statement of financial position, which were measured at fair value:

- a) expected credit losses;
- b) derivative financial instruments;
- c) buildings and land, within property, furniture and equipment;
- d) assets held for sale when their fair value less disposal costs is lower than their carrying amount;
- e) the net defined benefits liability is recognized as the present value of the defined benefit obligation.

The historical cost is generally based on the fair value of the consideration granted in exchange of goods and services.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the valuation date, regardless of whether that price is observable or estimated using another valuation technique directly. When estimating the fair value of an asset or liability, Fibra Inn considers the characteristics of the asset or liability, if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

While preparing these condensed consolidated financial statements, management has made judgments, estimates, and assumptions about the future, including risks and opportunities related to climate, that affect the application of Fibra Inn's accounting policies and the amounts presented for assets, liabilities, revenue, and expenses. Actual results may differ from these estimates.

Relevant estimates and assumptions are continuously reviewed and are consistent with the commitments of Fibra Inn described in the latest annual financial statements. Changes in estimates are recognized prospectively.

Adoption of new and revised International Financial Reporting Standards.

Application of new and revised International Financing Reporting Standards (“IFRS” or “IAS”) that are mandatorily effective for the current year.

- Amendments to IAS 21 – Lack of exchangeability.

These amendments are effective for annual reporting periods beginning on January 1, 2025, with retrospective application, without the need to restate the comparative periods.

Fibra Inn evaluated the aforementioned amendments and determined that the implementation of these amendments had no effect on its interim financial information.

New IFRS and interpretation issued, not yet effective in the reporting period.

Additionally, Fibra Inn has reviewed the following new IFRS and the modified interpretations not effective in the reporting period, and in its evaluation process, it does not visualize potential impacts due to their adoption, considering that they are not of significant applicability, except for IFRS 18, which requires changes in presentation in the income statement and cash flow statement, as well as a greater degree of disclosure in the notes to the annual financial statements:
